

GRIVEN
KOLORADO Mk3 1800
DMX Outdoor Colour Wash

*** * * * Weatherproof * * * ***

Architectural Colour Changer

- For walls, buildings, monuments etc.
 - Wide radiation angle
- Colour-changer with cyan, magenta, yellow for infinite colour-variations
 - With strobe-, dimmer- and blackout-function
- Control unit for adjusting the DMX-starting address, switching the lamp, reading out the operating hours of the lamp
 - DMX-512 controlled
- Stand-alone operation possible via pre-programmed sequences
 - Master/Slave-operation possible
- Uses extremely bright 1800W MHN-SA-lamp

KOLORADO MK3 1800, probably the most powerful outdoor colour changer of its category, is designed primarily for external architectural lighting, combining a wide angle high power flood light with the added benefits of a CYM colour changer, whereby the electronic mixing of cyan yellow and magenta dichroic filters can create virtually any desired colour, to highlight any building or structure to great effect.

But KOLORADO MK3 is equally at home indoors and its newly designed patented optical system giving a considerably greater light output, makes the unit highly suitable for television and film sets, live performances, exhibitions, etc. The unit have been fitted with a separate ballast to facilitate even further the access to its internal components. KOLORADO MK3 can function stand alone via a selection of in-built pre-programmed colour blend sequences, with adjustable times between these, from a slow, subtle mood creating colour mix through to an exciting colour chase. Multiple units can be synchronized in this mode, with one unit acting as a master, or single or multiple units can be precisely controlled from five channels of standard DMX 512. Control set up is simplified by the on board LED display and push button setting. The aluminium and galvanized steel body and the scratch resistant polyurethane paint are part of a housing design, which is fully weatherproofed (IP44). PATENT PENDING

KOLORADO 1800

TECHNICAL SPECIFICATIONS

- LAMP SOURCE NOT INCLUDED

Type:MHN-SA
Wattage (W):1800
Base:SFC 20-6
Lamp life (h):2.500
Lumens:180.000

- COLOURS

Color (MIX):

- PROJECTION

Angle:74° (standard) 34°- 93° (optional)
Dimmer:Mechanical
Strobe:2,6 Fps

- OPERATION

DMX channels:5
Stand alone:
Master / Slave:
On Board Control:

- HOUSING

Weather protection:IP44
Cooling:FV

- SIZE (mm)

Height:821
Width:620
Depth:623

- WEIGHT (kg)

Main fixture:70

- POWER

Input (V):230-240
HZ:50-60
AMP:9
