1st March 2007

Stock Number	UNIVERSAL FOG & HAZE FLUIDS	Our Price	Inc. VAT
MY-FL5	Mystique Fog Fluid "LIGHT"	£ 6.00	£ 7.05
MY-FS5	Mystique Fog Fluid "STANDARD"	£ 8.50	£ 9.99
MY-H5	Mystique HAZE Fluid	£ 7.64	£ 8.98

MYSTIQUE UNIVERSAL FLUIDS

have been formulated to be suitable for most makes of fog and haze machines (If in doubt, check with the machine's manufacturer). They are designed to not leave oily deposits or internal residue to block machines and should ensure long life and good reliability of fog and haze machines.

"LIGHT"

fluid produces a quick dispersing fog and helps to prevent the slow build-up of fog in small rooms when used over long periods, which would normally leave the audience unable to see the act.

"STANDARD"

fluid produces a normal dispersion fog for use in short bursts or with machines that feature automatic timers. Produces a medium density white cloud for maximum effect.

"HAZE"

fluid is for use with optical haze machines and produces an almost transparent haze of clear molecules that float in the air acting as a projection screen. NOT SUITABLE FOR USE IN "FOG" MACHINES.

SPECIAL ORDER

"DENSE"

Fog Fluid is available to special order, for use in very large venues or out-door. Please telephone or e-mail for details,

SAFETY

Mystique Fluids have been fully laboratory tested and a full Safety Data Sheet is available for all Mystique Fluids by request.
