etc.	

WARRANTY: 3 YEARS

CE Compliant

Int'l Fragrance Systems has over 20 years experience in manufacturing and many years in the fragrance industry and has developed an extensive range of fragrance machines:

POP Module
POP Module . IR
Multi-Scent Zero 1
Multi-Scent Zero 2
Multi-Scent Zero 3
CP550 (Very High Power Fragrance System)

These machines are used in all types of applications. Our aim is to produce the highest quality product available on the market today. Our fragrance is, we believe, simply the best ! We have a stock of over 150 different varieties to suite every application possible.

Whether you want to fragrance your office, shop, home etc., we have the right product for you. Our equipment is already being used in hundreds of applications such as Theme Parks, Interactive Movies, cafes, hotels, restaurants, shopping malls, in-fact every type of application you can think of to enhance the environment, sell your product or add that extra dimension ! You can just with the push of a button control the dispersal of fragrance exactly to your liking.

It is a well known fact that introducing fragrance into the atmosphere can improve productivity, aid learning, create a relaxing atmosphere or sell product. In tests within retail stores introducing "coffee" fragrance near the coffee shop, increased the sales of coffee by 14% in the first week alone.

The CP550 has been developed especially to supply the demand for outside fragancing such as in theme park attractions, carnivals, outside concerts, exhibitions, special events etc.

Just adding an exciting/intoxicating aroma to a showroom, exhibition or office can make it more comfortable for the customer and staff alike.

However, the type and quality of the fragrance is critical. Having "cheap" or even the wrong fragrance in the atmosphere is not going to have the desired effect and for this very reason we have spent many years learning and selecting the best fragrances available.

We can of course develop, in our own laboratory, fragrance to suit any application or specific requirement, be it a corporate image or product launch we can supply the exact fragrance you require.
