Dear All

I am so sorry for the delay in sending you these letters of thanks from the children, myself and the staff, but we have been busy, busy, busy!

I can not start to tell you all how fantastic the pool sensory system has been for our pupils and external users alike.

The children have a certain reaction of sheer vitality and joy when they go in to the pool. They are still enchanted by the lights and music and we have progressed with pool confidence and relaxation for pupils who proved to be quite insecure or difficult. All that we wished to achieve is now being done.

Words can not begin to explain how everyone has benefited from and enjoyed the whole concept of your system.

I send you, on behalf of all the children, adult users and staff, a huge and most sincere thank you for giving us our beautiful sensory experience.

I hope you have every success in being able to provide this for many more people.

With warmest regards

Jill Garufi
