Dear Kevin,

Just to let you know that we are delighted with our sensory room and the children and staff are making good use of our fabulous new resource area. Our school was officially opened on Wednesday, September 12th and everyone was very impressed with the sensory room and how it could maximize learning opportunities for children and students with learning disabilities.

Thank you for your training on September 3rd and the information about how to use the system. The staff are developing their confidence in using the room. No problems so far!!

Thank you once more to you and your team.

Yours Sincerely

Karen Thawley,
